

## **The anniversary programme**

The Swiss Science and Innovation Council (SSIC) will organise several events to mark its 50<sup>th</sup> anniversary. On 5 October, a seminar will be held on the subject of “The Constellation of HERI Actors and the Future”. Representatives from the major relevant Swiss institutions, including higher education institutions and the Swiss National Science Foundation (SNSF), will be in attendance. In the evening, the SSIC and Federal Councillor Johann N. Schneider-Ammann will welcome guests from both Switzerland and abroad, including the heads of other European research councils. On 6 October, the SSIC will hold the annual meeting of European science councils.
