

Annex of the ComCom press release from 9 November 2017

Table of mobile radio frequencies to be awarded

Frequency band	Frequency bandwidth	Availability
700 MHz	2 x 30 MHz FDD 1 x 15 MHz SDL, i.e. usable only for downstream	2019
1400 MHz	1 x 91 MHz SDL, i.e. usable only for downstream	2019
3500–3600 MHz and 3600–3800 MHz	1 x 300 MHz TDD	2019
2600 MHz remaining frequencies	2 x 5 MHz FDD	Immediately

Abbreviations:

FDD: Frequency Division Duplex (two radio channels are available for bi-directional data communication)

TDD: Time Division Duplex (bi-directional data communication is time-shifted over only one radio channel)

SDL: Supplementary DownLink (frequencies which can be used only for data communication to end customers, i.e. in conjunction with other frequencies).
