

AZIONE DI RICHIAMO E STOP ALLE VENDITE delle Husqvarna E-Bicycles definite di seguito, GASGAS E-Bicycles e modelli R Raymon

Gentile cliente,

Pierer New Mobility ritira diversi modelli di e-bike delle marche Husqvarna, GASGAS e R Raymon e ordina l'immediato stop alle vendite per tutti i modelli non ancora consegnati. I modelli interessati sono riportati negli elenchi sottostanti.

Durante i controlli di qualità interni sono state riscontrate delle irregolarità nella resistenza alla fatica del sistema frenante CLARKS. L'impianto frenante non corrisponde allo standard di sicurezza e alle specifiche tecniche. Potrebbe verificarsi un'eccessiva usura dei freni e in casi estremi la rottura del disco del freno, con conseguente infortunio.

Non sono interessati i prodotti già dotati di impianto frenante Shimano o Tektro.

Per questo motivo, sollecitiamo tutti i clienti a riportare i veicoli sottoelencati a un concessionario autorizzato PIERER New Mobility e di farvi eseguire l'azione di richiamo. Nel frattempo, i modelli elencati non dovranno più essere utilizzati.

L'impianto frenante sarà ritirato completamente dal mercato e sostituito da impianti frenanti di altri produttori.

Modelli interessati:
